Sixth National Conference on Military Electronics, Wash. D. C., June 25-27, 1962

J. K. Buckley, D. R. Gerue, Missile and Space Division, "Modulation of Xenon Arc Lamps."

Third International Symposium on Rarified Gas Dynamics, Paris, France, June 25-29, 1962

W. A. Janos, Equipment Division, "On the Convergence and Error Estimation in the Iterative Solution to the Non-Linear Boltzmann Equation."

Publications in Technical Journals

C. Carruthers, Industrial Components Division, "Circuits Using Photoconducting-Cell Choppers" published in *Electro-Technology*, June 1962.

E. Clark, Industrial Components Division, "Requirements for Military Knobs" published in *Electronic Products*, June 1962.

R. H. Dutton, Submarine Signal Operation, "RATAN" published in *Reed's Marine Equipment News*, June 1962.

O. K. Falor, Microwave and Power Tube Division, "How to Select Rugged Microwave Tubes" published in *Micro Waves*, June 1962.

C. Feng, Industrial Components Division, "Resistance Welding in Circuit Module Assembly" published in *Electrical Design News*, June 1962.

J. C. Fritsche, Missile and Space Division, "Reliability Evaluation at Raytheon" published in *Evaluation Engineering*, July-August 1962.

M. Holland, L. Rubin, J. Welts, Research Division, "A Versatile System for Calibration and Automatic Measurement of Temperature in the Range 2°K to 400°K" published in *Temperature—Its Measurement and Control in Science and Industry*, 1962.

S. Koozekanani, M. Ciftan, A. Krutchkoff, Research Division, "Observation of Quasi CW Operation of an Optical Ruby Maser" published in *Applied Optics*, May 1962.

J. Lavine, A. Iannini, Research Division, "Current Gain in Metal-Interface Amplifiers" published in *Solid-State Electronics*, March-April 1962.

J. Leon, Sorensen, "QM Voltage Selector Series" published in *Solid State Design*, June 1962.

W. B. Libby, Missile and Space Division, "Determining Pulse Fallout Time in Klystron Modulators" published in *Electronics Design*, June 1962.

D. Lieb, B. Jackson, C. Root, Research Division, "Abrupt Junction Diode Theory" published in *IRE Transactions of Professional Group on Electron Devices*, March 1962.

L. G. Marcus, Equipment Division, "Microwave Links Transmit Radar Data" published in *Control Engineering*, July 1962.

L. Neuringer, W. Bernard, Research Division, "Generation Recombination Noise and Capture Cross-Sections in p-Type Gold-Doped Germanium" published in *Journal of Physical and Chemical Solids*, December 1961.

J. M. Osepchuk, Microwave and Power Tube Division, "The Beam Miser—A Unique Depressed Collector for Crossed Field TWT's" published in *The Microwave Journal*, July 1962.

W. Rindner, R. Ellis, Research Division, "Electrolytic Etching of Germanium in Water," published in *Journal of Electrochemical Society*, June 1962.

W. Rindner, R. Nelson, Research Division, "A New p-n Junction Strain Transducer" published in *Proceedings of Western Electronic Show and Convention*, August 1962.

W. Rindner, J. Lavine, Research Division, "Trace-Plating—A New Semiconductor-Device Fabrication Technique" published in *Solid-State Electronics*, March-April 1962.

A. M. Rosenwald, Equipment Division, "Let's Talk Sense About Company Standards" published in *Standards Engineering*, June 1962.

G. Rupprecht, D. Ginsberg, J. Leslie, Research Division, "Pyrolytic Graphite Transmission Polarizer for Infrared Radiation" published in *Journal of the American Optical Society*, June 1962.

B. Ryland, Microwave and Power Tube Division, "Millimeter Wave Devices" published in *International Electronics*, July 1962.

A. Schmid, W. Rindner, Research Division, "Properties and Applications of a Sensitive Magnetic Transducer" published in *Proceedings of the Western Electronic Show and Convention*, August 1962.

R. L. Schroeder, J. Zvara, Equipment Division, "Terminal Guidance for Re-Entry Vehicles" published in *Space/Aeronautics*, July 1962.

C. J. Schuler, M. Ciftan, L. C. Bradley, III, and H. H. Stroke, Research Division, "Hyperfine Structure and Isotope Shift in the $7^2S_{1/2}$-$6^2P_{1/2}$ Transition of Natural Thallium by Atomic Beam Absorption" published in *Journal of the Optical Society of America*, May 1962.

B. Silverman, Research Division, "Microwave Absorption in Cubic Strontium Titanate" published in *Physical Review*, March 1962.

H. Statz, R. Paananen, Research Division, G. F. Koster, M.I.T., "Zeeman Effect in Gaseous Helium Optical Maser" published in *Journal of Applied Physics*, July 1962.

H. J. Van Hook, Research Division, "Phase Relations in the Ternary System Fe_2O_3-FeO-$YFeO_3$" published in *Journal of the American Ceramic Society*, April 1962.

D. Whateley, Industrial Components Division, "Thaysistor Applications" published in *Electrical Design News*, July 1962.

INDEX TO CONTENTS OF VOLUME VI

NUMBER 1 (JULY-AUGUST 1961)

The Problem of Arms Control ..... *Clark C. Abt*
Optical Masers ..... *Clarence F. Luck, Jr.*
Principles of Astronautics ..... *Gerald A. Ouellette*
1. Launch Mechanics of Space Vehicles

NUMBER 2 (SEPTEMBER-OCTOBER 1961)

PERT ..... *Robert W. Miller*
Electromagnetic Phenomena in Tornadoes ... *Paul A. Silberg*
Principles of Astronautics ..... *Gerald A. Ouellette*
2. Planetary Artificial Satellites

NUMBER 3 (NOVEMBER-DECEMBER 1961)

Characteristics of a Backward-Wave Oscillator with an External Feedback Circuit
Samuel J. Ameen, Robert Plumridge
A Design Technique for High Speed Transistor Circuits
Walter A. Doesschate, Jr.
Principles of Astronautics ..... *Gerald A. Ouellette*
3. Interplanetary Transfer
A Symbol Generator for Air Traffic Control
Raymond W. Dankwardt

NUMBER 4 (JANUARY-FEBRUARY 1962)

International Air Traffic Control
Air Traffic Control ..... *Harold Asquith*
Radar Bright Display ..... *Alfred M. McCoy*
Air Traffic Control Radar at Selenia
Jules E. Kadish, Francesco Muslo
Secondary Surveillance Radar and Airborne Transponder System ..... *G. G. Roberts*
Transmission of Radar Pictures over Telephone Lines by Slowed-Down Video
T. W. R. East, M. M. Feilchenfeld
Microwave Radar Relay Links in Switzerland
L. Gerald Marcus

NUMBER 5 (MARCH-APRIL 1962)

A Survey of Research on Submillimeter-Wave Generators and Amplifiers ..... *Glen Wade*
Principles of Astronautics ..... *Gerald A. Ouellette*
4. Entry into Planetary Atmospheres
A Simplified Method of Transformer Specification
Robert S. Quimby
Professional Level V

NUMBER 6 (MAY-JUNE 1962)

Focus on Research
Research ... The Raytheon Approach
Superconductors and High Magnetic Fields .. *Leo J. Neuringer*
Ferroelectricity at Microwave Frequencies ... *B. D. Silverman*
Thin-Film Amplifiers .. *Jerome M. Lavine, Americo A. Iannini*
